

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of all claims in the application.

Listing of Claims

1-14. (Cancelled)

15. (Currently amended) A method of treatment of a host with a cellular proliferative disease, comprising contacting said host with ~~a naphthalimide comprising an amonafide~~ in conjunction with ~~an antiproliferative agent comprising~~ homoharringtonine, each in an amount sufficient to have an anticancer effect on ~~modulate~~ said cellular proliferative disease, wherein said cellular proliferative disease is a solid tumor.

16. (Currently amended) A method according to claim 1 wherein said ~~amonafide naphthalimide~~ is administered before the administration of said ~~homoharringtonine. antiproliferative agent.~~

17. (Currently amended) A method according to claim 1 wherein said ~~amonafide naphthalimide~~ is administered during the administration of said ~~homoharringtonine. antiproliferative agent.~~

18. (Currently amended) A method according to claim 1 wherein said ~~amonafide naphthalimide~~ is administered after the administration of said ~~homoharringtonine. antiproliferative agent.~~

19. (Currently amended) The method according to claim 1 wherein said anticancer effect of said amonafide and said homoharringtonine on said cellular proliferative disease is greater than that for said amonafide or said homoharringtonine alone. ~~the modulation of said disease with said naphthalimide and said antiproliferative agent is greater than that for said naphthalimide or said antiproliferative agent alone.~~

20. (Canceled)

21. (Canceled)

22. (Currently amended) The method according to claim 21 wherein said anticancer effect is a chemopotentiating effect. ~~modulation comprises the reduction of tumor growth.~~

23. (Currently amended) The method according to claim 21 wherein said anticancer effect is a cytostatic effect. ~~modulation comprises inhibition of tumor growth.~~

24. (Currently amended) The method according to claim 21 wherein said anticancer effect is ~~modulation comprises an increase in tumor volume quadrupling time.~~

25. (Currently amended) A composition comprising ~~an~~ amonafide and homoharringtonine, wherein the modulation of a cellular proliferative disease by amonafide and homoharringtonine is greater than that for amonafide or homoharringtonine alone.
